# Interview Report: fullstack dev

Date: 2025-04-23 07:00:41

Note: Audio recordings of responses are available in separate MP3 files.

Overall Score: 1.0/5.0

# **EXECUTIVE SUMMARY**

Overall Assessment: Below average candidate, needs improvement in technical areas

# **Top Skills:**

- javascript: 1.0/5.0

- java: 1.0/5.0

- python: 1.0/5.0

# **DETAILED ANALYSIS**

# **Question 1: javascript**

How would you implement AJAX requests using javascript in a fullstack dev project with specific attention to ES6 features and end-to-end implementation strategies?

# **Student's Response:**

No response provided.

# **Analysis:**

- Words: 3 (Brief)

- Mentioned skill: No

- Provided examples: No

- Technical terms: 0

- Score: 1.0/5.0

- Could better demonstrate specific javascript knowledge
- Could include more specific examples
- Could incorporate more technical terms
- Response could be more detailed

# **Question 2: java**

How do you ensure code quality in java projects with specific attention to reflection API and end-to-end implementation strategies?

# **Student's Response:**

No response provided.

# **Analysis:**

- Words: 3 (Brief)

- Mentioned skill: No

- Provided examples: No

- Technical terms: 0

- Score: 1.0/5.0

- Could better demonstrate specific java knowledge
- Could include more specific examples
- Could incorporate more technical terms
- Response could be more detailed

# **Question 3: python**

Describe a situation where you had to mentor someone on python. with specific attention to generators and end-to-end implementation strategies?

# **Student's Response:**

No response provided.

# **Analysis:**

- Words: 3 (Brief)

- Mentioned skill: No

- Provided examples: No

- Technical terms: 0

- Score: 1.0/5.0

- Could better demonstrate specific python knowledge
- Could include more specific examples
- Could incorporate more technical terms
- Response could be more detailed

# **Question 4: html**

Describe a performance bottleneck you encountered with html and how you resolved it. with specific attention to modern approaches and end-to-end implementation strategies?

# **Student's Response:**

No response provided.

# **Analysis:**

- Words: 3 (Brief)

- Mentioned skill: No

- Provided examples: No

- Technical terms: 0

- Score: 1.0/5.0

- Could better demonstrate specific html knowledge
- Could include more specific examples
- Could incorporate more technical terms
- Response could be more detailed

# **Question 5: css**

Describe your experience with css. with specific attention to best practices and end-to-end implementation strategies?

# **Student's Response:**

No response provided.

# **Analysis:**

- Words: 3 (Brief)

- Mentioned skill: No

- Provided examples: No

- Technical terms: 0

- Score: 1.0/5.0

- Could better demonstrate specific css knowledge
- Could include more specific examples
- Could incorporate more technical terms
- Response could be more detailed
